

The Fulbright LL.M. Award at the University of Pittsburgh

The Award: The **Master of Laws (LL.M.)** Program at the University of Pittsburgh has partnered with Fulbright Belgium + Luxembourg to offer a \$20,000 grant for eligible students to pursue an LL.M. degree at Pitt Law. Eligible students must be a citizen of Belgium or Luxembourg, and must hold a first degree in law from a foreign (non-U.S.) jurisdiction. Fulbright will also offer the successful candidate a **travel stipend, sickness and accident insurance, J-visa sponsorship, and access to global Fulbright programming** in Belgium and the United States.

The Program: The University of Pittsburgh's Master of Laws (LLM) Program for Foreign Law Graduates provides lawyers who have completed their law degree outside the United States with an opportunity to study the common law legal tradition and the U.S. legal system in the United States. Students pursue their goals with the help of a close-knit community of accomplished and energetic scholars who are at the forefront of domestic and international legal research and scholarship.

The University of Pittsburgh offers a general LLM degree that gives students the freedom and flexibility to choose their courses from the Law School's full curriculum. All courses are taken with the general JD student population, other than a required Introduction to American Law in the fall and the LLM colloquium in the spring. Students can focus their coursework on a particular field, or they can take a generalized approach and incorporate multiple subject areas. Either way, our dedicated CILE staff is here to help develop an appropriate course of study tailored to each LLM student's needs.

At Pitt Law, you will be part of a small group of highly accomplished and talented foreign-trained lawyers, tightly integrated into the life of the law school as a whole but with a variety of activities specially designed for our LLM students.

The Campus: Pitt Law is located in the Oakland neighborhood of Pittsburgh, home to both the University of Pittsburgh and Carnegie Mellon University, universities that have helped transform our city into a thriving hub for innovation. Our University of Pittsburgh Medical Center is a driving force in developing new techniques and biotechnology endeavors, and the wealth of software and robotics talent drew Google to open offices here and Uber to test their automated driverless cars on our streets.

Contact: To apply, submit an application form at www.fulbright.be and indicate your intention to apply to Pitt Law. For more information, contact Richard Thorpe at richard.thorpe@pitt.edu or email students@fulbright.be.
